As members of the Providence, RI community for more than 50 years, the firm and its predecessors take pride in being active supporters of our city and region. We are much more than vendors to the clients we serve – we understand their industries, operations, and become reliable partners helping to advise them on all aspects of their business. Deep roots in the community, the specialty services we offer, and our hands-on/client-centric approach distinguish us from other firms of our size.

Welcome to Providence!
